**Ref No: MH/ Sub station letter 03**

Dear Neighbour,

### **IMPROVEMENT WORKS – Chiswick Village Substation**

I am writing to inform you that the previously communicated improvement works will be starting within the next few days.

### **Preparatory works start on Thursday 27<sup>th</sup> September**

The initial site set up will take place in the provisioned car parking area and will facilitate the establishment of a site office, welfare unit, storage and amenities. Site security will also be provided. Site work will subsequently commence in the form of removing 5 of the original garages to create access into the site for civil works to be undertaken. These works be undertaken in daylight hours and should not be excessively disruptive, however access will be required by machine plant. During the movement of the machine plant, some disturbance may be unavoidable, but we will make every effort to minimise any unnecessary noise. Furthermore, those working on site are briefed on working responsibly in the local community.

A crane will be required to perform lifting operations on a single day during these works and as a safety precaution some restrictions to parking or vehicular access may be necessary. Pedestrian access to residential houses, driveways or garages will be maintained at all times.

Residents will be notified of work progress by an agreed liaison with Chiswick Village Residents Ltd by which regular updates will be posted on the local notice boards.

Further correspondence will be communicated with more details closer to the crane lifting operations.

I hope this information is helpful and we apologise for any inconvenience these essential works may cause. However, if you have any additional questions or concerns, please telephone our **24-Hour National Helpline on 08457 11 41 41**.

Yours sincerely

Nick Gray
