### **RAILWAY IMPROVEMENTS IN THE CHISWICK VILLAGE AREA**

I am writing to inform you that further to our previous open evening in January 2012 and prior to the commencement of our project works, Network Rail will be holding a drop in session on the 28 June 2012 from 4.30pm until 8.00pm in the communal gardens of the Chiswick Village residential area.

Representatives from Network Rail will be present to discuss the forthcoming Power Supply Enhancement project on the Hounslow Loop route and its' onsite works within specific areas of the Chiswick Village residential area commencing at the beginning of July 2012.

We are aware that due to the nature of the works and the limited access and space within Chiswick Village there is a potential for some disturbance whilst these essential improvement works are undertaken. The basis of this open forum is for residents to ask any questions related to these works and for Network Rail and our contractors to engage with residents and communicate the mitigating measures that we have put in place to minimise disruption where possible.

While these works are being carried out we will also need to access to the work site via Chiswick Village Road and we would like to take this opportunity to inform you of the steps that we have taken to work cohesively alongside residential dwellings.

Our drop in facility will provide details of our planned works, examples of previous works undertaken and offer you the opportunity to any concerns you have individually with our project team. Some light refreshments will also be provided.

We look forward to seeing you on the 28<sup>th</sup> June 2012 at Chiswick Village.

Yours faithfully
